UPLOADING FILES FOR MASTERING

If you're ready to go, simply send your files to audio@hobosapiens.si with your favourite large file transfer system – we recommend WeTransfer.com along with the following details:

- Artist name
- Release title
- Track titles
- Running order
- ISRC codes (if you have them)
- Any notes you may have
- Any references you can provide

FILE DELIVERY SPECS

Please ensure you send your mixdowns ready for mastering:

- As stereo interleaved, 24 bit WAV or AIFF
- At the sample rate your project is in
- With 3dB headroom – or at least no clipping
- With master limiters switched off

Any questions, simply email me on info@hobosapiens.si .

UPLOADING FILES FOR MIXING

Please send your files for online mixing to audio@hobosapiens.si using WeTransfer.com or your favourite alternative. Files will need to be individual exports for each instrument channel (stems) supplied to the following specifications:

- 24 bit WAV/AIFF at the same sample rate as your project
- No clipping on any channel
- No effects unless integral to the sound i.e. 'creative' effects like delays, modulations etc. Generally no EQ or compression. If in doubt, send wet & dry versions
- Each stem clearly labelled
- All stems starting at 0:00 of the project

Please also include your rough mix, any notes you have and any references you think would be useful. If you have any questions, don't hesitate to contact me.
